WOMAN'S SMILE.

ON earth there's nothing worth possessing, Or can the ills of life beguile, Without that dearest, sweetest blessing, The magic of a woman's smile.

The glare of wealth, the pomp of fame, Are senseless pleasures, joyless, vile; Are baubles with a splendid name, Without the charm of woman's smile.

The noxious clouds or motley care,
That thicken round our joys awhile,
Like morning mist dissolve in-air,
Before the beams of woman's smile.

How sweet the sun's bright beams must be, After long night to Zembla's Isle!
But oh! much sweeter far to me, The sunshine of a woman's smile

Then place me Fate, where'er you may, 'Mid dreary waste, or savage isle; For o'er my soul no gloom can stray, While I am blest with woman's smile.

BEAUTY'S GRAVE. TREAD softly stranger! this is ground Which no rude footstep should impress; With tender pity gaze around,

Let sadness all thy soul possess.

Tread softly! lest thou crush the flowers That o'er this turf are taught to wave, Transplanted from their native bowers, To shed their sweets o'er Beauty's Grave.

And stranger, let your melting heart, And ere you from the scene depart, O let your soul commune with GOD. Thus fade the fragile buds of earth,
Thus fade the lovely and the brave!
Come here ye thoughtless sons of mirth, And pause awhile o'er Beauty's Grave.

Sweet withered Rose! may thy pale doom Call tears into the virgin's eye!

O may the prospects of this tomb
Remind her "all that live must die!" And warn her in her days of youth, To think of Him, who Being gave,
And bid her seek the way of Truth, Like her who sleeps in Beauty's Grave,

FROM THE NATIONAL INTELLIGENCER.

The emigrations to the west, at this time, far exceed those of any former period. The state of Indiana, and the Illinois and Missouri territories, receive he greater part of those enterprizing adenturers, to whom, and to whose friends, may not be uninteresting to learn, that he following military posts are occupied and garrisoned by the army on that frontier, viz:

Fort Harrison, on the Wabash, about 0 miles above Vincennes. Fort Clark, on the Illinois, 250 miles

bove the Mouth of the Missouri. Belle Fontaine, on the Missouri, 15 niles above St. Louis.

Fort Osage, on the Missouri, 300 miles bove its mouth. Fort Edwards, on the Mississippi, 220 niles above the mouth of Missouri.

Fort Armstrong, on the Mississippi 20 miles above the Mouth of Missouri. Fort Crawford, at Praire du-Chein, or ne Mississippi, 600 miles above the nouth of Missouri, and is the advanced ost connecting the Mississippi with the akes, between which and the post a Greenbay, on Lake Michigan, there is not nore than three miles land transporta-

On the upper lakes, above Detroit here are at present but three Military osts, viz: at Mackinaw, at Greenbay nd at Chicago, the southern part of lake Michigan.

Another military post is deemed important at the falls of St. Mary's between akes Huron and Superior; this would aterrupt the smugglers, and afford aditional security to that frontier. We presume this point will attract the attention of the government as soon as troops can be spared to form a garrison.

This chain of sentinels will then afford protection to a vast and valuable territory, every day becoming more important y the rapid increase of its population. Between our advance post, Natchito hes, on Red river, in Louisiana, and the Spanish Patriot post of Nacogdoches, in he province of Texas, the distance does

not exceed eighty miles.

It is said a new post is shortly to be esablished on the Arkansas, near when he Osage line strikes that river.

If the peace establishment of our army would warrant the government in in reasing the number and strength of the frontier garrisons, beneficial results might be expected in keeping the Indians quiet, and affording security to our new and flourishing settlements.

We have a letter from a well inform ed gentleman at Alicant, which gives some very interesting particulars of the present state of Spain, upon which the utmost reliance may be placed, from which we make the following extrac

"The latest papers will accompany his letter; be so good as to present then o Mr. Duane, though they do not conain any thing of great interest, except ing the proclamation of general Casta nos, captain general of Catalonia, con cerning a revolution which has been atempted in that province, and at the head of which was lieutenant general Lacy major general Milans, and an immense number of other officers of rank. Reports are various as to the real result of tnat insurrection as yet-We know that Lacy is certainly taken prisoner; but i appears that the people of the whole proince have sent commissioners to require his liberty and his pardon, and the liberty and pardon of all concerned.

" This will not be granted, if it can be avoided, for the king never pardons any ne for similar attempts; the apprehension, however, of the whole province rising in arms, and the fear of the rising eing more extensive, may induce more onciliatory measures for the present n this province, (Valencia), and in Galado, in the ruin of those who blindly enrage in them, without calculating the aculties possessed, or the resources remired for resistance; the chiefs in general have been military men, who, under such governments as Spain, however brave they may be as soldiers, and howeever virtuous as patriots, cannot possess hat knowledge or experience which is indispensable in revolutions against des-

"The discontent, however, throughout this whole country, is so great, that from one moment to another no one can determine what is to happen from a pecole driven to despair. Never was there Dey of Algiers who ruled with such despotic sway, or with such stupid ignorance, as Ferdinand VII; in truth, it is confessed by the Spaniards who have been his most ardent supporters, that he and his courtiers are digging away the foundation from under their own feet, and that the time cannot be very remote, when the fabric must fall and bury them all in the ruins.

"Commerce of every description is at a stand; the receipt of the precious metals from America is interrupted; avarice and apprehension bury a great deal of the money that is in the country; so that very little any where appears, and there is neither agriculture nor manufactures to invite money from other countries. The court is as much impoverished as the people, and the expeditions, though wretched and small, which have been sent under the name of outting an end to the revolution in South America, have reduced the public treaury to its last dollar.

"I learn from Cadiz, that an expedition was to sail from thence on the 7th of this month, consisting of no more than 1000 men; they are said to be destined for Arica and Lima; it is acknowledged that this is the last they can send. The expeditions which have sailed in the present year, consist of about 1500 men, lestined for Vera Cruz: another originally destined for Porto Bello, and to cross the Isthmus to the South Sea, and by that route to Lima- third is that which is to sail about this time. An expedition to Buenos Ayres is no longer spoken of, for every dollar has been drained to send off this last expedition, and as yet not a person has been paid for the freight and demurrage of the expedition to the Maine under Morillo, in 1815."

So far from Old Spains

By advices from Plexico, via New-Orleans, it appears that general Mina had landed at Soto de la Murina, a smell town on the Mexican coast about 16 miles north of the bay of Tampico. General Mina appears to carry with him as much arms and military stores as freighted 13 vessels, the fruits of the successful cruizes of the patriot com. Auri, who after landing general Mira and his resources, was directed to sail from the coast. Commodore Auri, it appears, has returned to his former position, as it is from on board his squadron that these advices are received.

The intention of general Mina appears We have received files of the Madrid to have been, before he landed, to make rapid marches for the interior, after depositing his stores in situations of security; while the fleet lay there he had been joined by 800 men of the province of St. Andero, who advised him of a considerable force being collected at Cohuaila, ready to join and co-operate with him. He advanced into the interior the third day after his landing, and here is every reason to believe, that beore this time he has entered Mexico in

Dr. W. D. Robinson, who went to Mexico on a mercantile speculation, in which he had been very successful, having disposed of all his merchandize, and was returning homeward with the proseeds of his voyage, was plundered of all his property, and in order to justify the robbery, they seized him as a spy. After being passed through many prions, he was at length placed in the dungeons of the fortress of St. Jode Ulloa, n an island in the Mexican sea, oppoite to Vera Cruz, where it is now said e is detained a close prisoner.

There is another American in the same fortress, whose name is Gray, and said to be a native of Georgia, and whose condition is at once deplorable, as to the ndividual, and disgraceful to the Spansh government. He is loaded with heay irons, and with their weight he is compelled to the most severe labor by ruel treatment; and the most unfeelng and ignominious taunts and insuits gainst his country and countrymen. An infortunate man who some time ago made his escape from that infernal place, has brought this information of te situation of those unfortunate Ameicans; there would have been no account had not this man escaped; for he says that Dr. Robinson and Gray dare not approach the grating to speak to each other; while their feelings are aggravated by their inability to exchange sympathies and consolations with each other. What man is there who must not from his inmost soul, desire to see e detestable tyranny of Spain in America extinguished forever, and liberty ssert her empire where crucity and parbarism now prevail.

KENTUCKY GAZETTE

"True to his charge-He comes, the Herald of a noisy world; News from all nations lumb'ring at his back."

LEXINGTON, SATURDAY, JULY 19.

TO OUR SUBSCRIBERS.

We have now the pleasure to redeen our pledge, of presenting to you the KENTUCKY GAZETTE, clothed in a dress and enlarged to a size, equal to any pape published in the country. This improve ment has cost us considerable money and will add to our weekly labor and ex penses. It will, we hope, yield propor tionate advantages to our readers. You will not, therefore, deem it unreasonable in us to raise the terms of subscription to THREE DOLLARS per annum payable in advance, or Four Dollars paid at the expiration of the year. It will be indis pensably necessary for distant subscribers always to remit to us the THREE DOL LARS in advance, as it is impracticable to collect so many small sums, scattered, as they will be, in every part of the state.

ENTRACT TO THE EDITOR, DATED Frankfort, July 14.

"The Small Pox has made its appear ance here. It was brought by a jour neyman shoemaker from Louisville."

Mr. JOHN PRICE, a member of the convention who adopted the present constitution of Kentucky, has, without holding any political station, or being a candidate any office, been rudely dragged into the columns of the federal paper in Frankfort, and treated with unwarranta ble disrespect. A coloring has been therein given to his expressions in a fa miliar private conversation, on the subject of a new election of governor, which he by no means intended. He would always choose to state his sentiments in his own words. Mr. Price was and is in favour of a new election of governor,

" 1st. Because the choice of a governo is the constitutional right of the pec ple, and he is not disposed to rol

them of that right. 2dly. Because the people wish a new election; and as no person what ever can be injured thereby, he judges it his duty to give the people

3dly. Because the lieutenant governo is only wact as governor until governor can be duly qualified. Athly. Because no man ought to b governor, who is not the choice of the heapte.

5thly. Because no principle ought to be established, which can or wil keep a man in office as governor more than four in twelve years.

Had Madison departed this life before he took the oath prescribed, Shelby, withou a new election, must have been governo another four years; at the end of which time, another would have been chosen and had he also died before taking th oath, the good old man Shelby migh have been governor as long as he lived because he was to serve four years, and until his successor was qualified.

Lastly, Mr. Price is in favour of a new election, because the federalists are so strenuously and violently opposed to it. Both sides support their ar guments from the constitution. Poor book! it shares the fate common to all books; men understand it as suits their inclinations."

These are Mr. Price's reasons for sup porting a new election of governor; and very cogent ones they are. If he had been asked for them with a view to pub lication, though he is not in the habit of medding in politics, he would have furnished them in his own language. That gentleman is a member of the Baptis denomination of christians, of long stand ing, and is well known for his exemplary life, and his unblemished goodness and integrity of heart.

POPULAR DEBATE.

On Monday afternoon last, Mr. Breckenridge, Mr. Flournoy and Mr. Barry uddressed a number of the citizens of town and country in the New Market House, on the subject of a new election of governor. We cannot withhold the expression of our gratification at the vast superiority of mind and talent displayed on the occasion by the advocates of the people's rights, over the pretended defender of our constitution, but the real champion of the acting executive and secretary of the commonwealth. calm and dignified argument of Mr. Breckenridge; the bold, vigorous and indignant eloquence of Mr. Barry, shed lustre upon the cause of the people, which they supported with triumphant energy and irresistible logic.

Mr. BRICKENRIDGE commenced hi address by a just eulogium on the the i lustrious patriot whese death has produced the necessity of discussing the ques tion of a new election of governor. Ka stated the question to be, whether the people could now constitutionally elect unless the constitution expressiv forbade such an election, the people had an unquestionable right to make it: We shew ed that they derived all their rights, no from the constitution, but from nature and the God of nature; and thus deriving their rights, they could properly and justly elect a new governor at this time without it could be shown that they had specifically relinquished that right in the constitution: He demonstrated even b the constitution itself, "that all power i inherent in the people, and all free gov ernments are founded on their authority. and instituted for their peace, safety and | would produce: He said, he had under-

In the course of h In the course of hi the GAZETTE, which hereafter will be speech, Mr. Breckenridge exposed the quotation in the resolution and preamble declaring that Gabriel Slaughter was entitled to hold the office of governor for and continued to speak till half past nine he residue of time for which George Madison was elected. Mr. Mills and the describe the brilliant coruscations of his should have introduced this topic; but assembly, in that preamble, make the constitution say that "the governor shall be elected at the end of every four years; whereas the language of the constitution is, that "the governor shall be elected genius and commanding powers of mind for the term of four years ;" thus indicating that though he is elected for four tempt it: Memory cannot trace even the years, he may not serve the whole term and leaving it with the people, in case of of the fire which warmed and animated the governor's death, to elect another the speaker. The repeated bursts of ap before the end of four years. Whether this false quotation had been intentional furnish sufficient evidence that the cha or not, and he was bound to presume was unintentional, it was equally impro per, unwarrantable and deceptious. Mr Breckenridge concluded a speech of one hour and forty minutes, replete with con vincing arguments, of which we have preserved very few of the ideas, much at that late hour. But he hoped that the less the eloquent language, by advertin to the declaration of the enemies of new election, that the court of appeal would set aside a new election of gov ernor as unconstitutional. He justly scouted the idea, as a usurpation of the power of adjudicating great political to think, and speak, and act independent questions, with which the court of ap-ly, notwithstanding the threats of civi peals had nothing to do. He respected the judiciary: He wished they were more independent and better paid that they are: But the province of the court of appeals was not to decide on politics; no! it was the moderate men, the people it was to adjudicate the rights of proper ty, to decide questions of meum and tu im. NATIONAL WEALTH.

The wealth of a country depends upless it will have to import. The difference between its exports and imports will be the gain or the loss to the country .-That country which imports more than it exports, must become poor in time, if not bankrupt; but when the exports much exceed the imports, a national profit is the result; and this profit is at the disposal of the community, for various improvements of private and public character. At present, turnpiking the principal roads of the state would add very much to the wealth of the state.-The successful operation of our manu facturers is also of the first importance Would it not be well for our citizens to follow the example of the people of Connecticut, in their wearing apparel? Over assembly men ought to cloth themselves in the fabrics of Kentucky, which can now be furnished on as good terms as the British, and in quality superior for wear. These observations were hastily committed to paper, on seeing the advertisement of Mr. M'Robb, in the Gazette of to-day. We are assured of his capability, and see no reason why the manufacturing of Cotton and Wool cannot be carried on here as advantageously as in any other part of the United States. and the raw materials as low if not lower than in any of the Eastern States.

IMPORTANT DISCLOSURE.

We earnestly call the attention of the public to the subjoined article from the Frankfort Argus. It unfolds a scene of political dictation and depravity, on the part of Secretary Pope, unparalleled, at least in the state of Kentucky. His own letter affords the evidence, the blasting evidence, of the confidential adviser and officer of acting Governor Slaughter interfering in the elections of representalives; and by means of temptation and seducing offers of HIS "GOOD WILL" and executive favor, endeavoring to ensure the return of members who will ministhe people never elected him. FROM THE ARGUS. INTRIGUE DETECTED

"REPUBLICANS, TO YOUR POSTS!!" The following is one among many leters written by the secretary of state to nfluence the county elections and fill the General Assembly with men subservient to his ambition. It is from a secretary to a candidate, with assurances of "good will" and an intimation of reward, if he will promote the views of the executive! If there is any other honorable man who has been insulted by such an epistle, we call on him in the name of the virtue, the honor and the patriotism of Kentucky, to lay it before an injured people, and show them the arts and intrigues which ambition uses to perpetuate its power.

It is necessary to premise, that Charles H. Allen Esq. who has so honorably answered this insulting letter and so promptly exposed the arts of ambition, sometime ago offered his services to represent the county of Henry in the next General Assembly. He was at first opposed to a new election: but on a careful examination of the constitution, changed his opinion.-This change was publicly known in Frankfort several weeks before the date of Mr. Pope's letter. Did Mr. Pope know this fact? Did he write the letter with this knowledge, presuming that the "Kentuckian" which he had sent, backed by his intimation and professions of "good will," would change the opinion and conduct of Mr. Allen? Well might an honorable man be indignant! Well might he hold up to public scorn and deon its ability to supply its wants. The rision the man who dared presume so more it can produce within itself, the far upon his want of honorable feelings and republican virtue! But enough.

Read, people of Kentucky, and let the contents of the following letters sink deep into your hearts.

Letter from C. H. Allen, Esq. to the

Editors of the Argus. The Editors of the Argus are at liberty to publish the enclosed letter and answer, together with the reasons which induced me to suffer the publication. My reasons are these: By some means unknown to me, it has leaked out that I had received a letter from Mr. Pope. A demand was made on me by a number of the citizens of Henry county, and I was asked in a public company if I had not received it, accompanied with observaions calculated to injure me, as I thought, In order to prevent its having an improper influence on my standing, I consid ered that in justice to myself, I was bound to show it, which I accordingly did. The questions and observations were in substance: Did you receive a letter from Mr. Pope? Answer, I did. The person then observed, that he understood that a certain gentleman had said, he would lay a wager, that a certain candidate had received a letter from Mr. Pope, holding out some inducements to him. In order to show that these observations do not apply to me, I consider it my duty to have the letter published.

FROM THE FRANKFORT ARGUS.

The following sentence is from an es-"Remember one thing, that the legisfrom the constitution; and that to exernstrument."

It is astonishing that any man who can write an essay, should advance such a loctrine, and much more astonishing that he should believe it. There is scarcely farmer in Kentucky who does not know that the legislature receives its power enirely from the people and not from the constitution. The constitution so far as t goes is the written will of the people, a surrender of power, which would otherwise belong to them and through them to the legislature. It does not give power; but takes it away. It prescribes not what shall be done; but what shall not be done. When the legislature pass a law, they look into the constitution not to find a 'grant' of power; but to see if there is any prohibition. If it is prohibited, it is against the constitution; if not, it is constitutional. Where in that instrument is the 'grant' of power to hang man for murder, put him in the Penitentiary for man-slaughter, whip a negro or punish any crime whatever?-Where is the 'grant' of power to lay axes, provide for the sale of public lands, give indulgence to settlers, enforce the payment of debts or do one of those ten housand acts necessary for good government? The constitution contains no uch grant. The power is inherent in he people and in the legislature as their gents. In obedience to the instructions of the people, the legislature can do evey thing which is not forbidden in the constitution either expressly or by ne

The growing importance of the Alapama country, attracts public attention. he climate combines all the advantages of a northern and southern latitude; and ts soil yields the production of both.the tide of emigration to this country, luring the last summer, was strong and ncessant, and did not remit till it was found that the produce of the season was not sufficient to subsist all the new comers. The Alabama river is likev soon become the channel for the inhabiants of East Tennessee, to supply their vants from the seaboard. Since the establishment of a new state from the wesern part of the Mississippi territory, the astern, embracing the Moble, Alabama, cc. has been erected into a territory by he name of Alabama, and will no doubt ere long attain to its requisite population become a state. NEW ORLEANS, June 28. THE PLAGUE.

This destructive disease made its apthe patriots have evacuated the island of pearance in the West Indians about seven or eight months since. After coma junction with their other forces on the mitting great ravages at Martinique and Gaudaloupe, it reached Barbadoes and Antigua, and other of the British Windpresent East Florida, particularly Ame- ward Islands, where its progress was elia island, in a state of constant alarm, qually fatal. The distinguishing trait from an expectation that the patriot pribetween this disease and the common tions, but has at length been existed. vateers were about to take possession of Yellow Fever, is, its indiscriminate at-that place. Our latest Charleston papers tack on both natives, long residents and capital, where, from the time of the year, The Rubicon, arrived at New-York the number of inhabitants, and defective from Havre, brings despatches from Mr. police of that city, its ravages we fear

for securing New-Orleans from the danger to which a communication with the countries infected might expose us.

SOUTH AMERICAN AFFAIRS. FROM THE BALTIMORE AMERICAN.

We have been politely furnished by entleman who arrived in the Bay in the Buenos Ayrean brig Patriota, with the following interesting information relative

On the 1st of June last, a Spanish squadron passed the Island of Margaretta, consisting of 20 sail and 2,500 men. under the Bourbon flag, and anchored in Cumana, after plundering several fishing boats, and pressing a number of fishermen, and committing numerous other depredations against the citizens: by the ast accounts they had not disembarked, as they were in an unhealthy state, and finding that Gen. Arismendi was determined to dispute the ground with them.

A few days previous to the sailing of Ad. Brion, from Pamptaar, he received despatches from Gen. Bolivar, requesting two men of war and four gun boats to enter the Oronoko in order to intercept the royal tyrants of Spain, which embarked in some merchant vessels from the Guayanas previous to its capture, and now lying at Angustura, with all their riches supposed to amount to four

Gen. Bolivar only waits the answer of Admiral Brion, to advance on Angustura, the only place that remains in the nands of the tyrants in that quarter, where there remains no doubt of his success. [It has since been captured.]

Kingston, (Jam.) June 5.
The schr. Condor, Esteves, of 4 guns and 80 men, under the Venezuelean flag, with Despasches to Admiral Douglas from the chiefs of the Independents, ar ived at Port Royal on Saturday, in nine days from Margaretta. We learn by the Condor, that General Bolivar had obtained possession of Angustura, on the river Oronoko, by which he had secured an ntercourse with New Grenada, and was ppening one behind Guiana, to communicate with the advanced troops of the Brazilian army.

The Condor has orders to search for and capture the privateer Monica, capt Augustia, several acts of piracy having been committed by him; and to take to Margaretta the people in irons.

The following privateers under the Venezuelean flag, had been ordered into port by Biron, in consequence of the pe riod limited for their cruize having expired, viz: Jupiter, Constitution and A.

A private communication dated Pampatar, the 22d ult. gives the following: "The Independents occupy the w of the interior, and the provinces of Guayana and Cumana, except the cities, which being closely invested, must so surrender. Their squadron is increasing capidly, and Sir Gregor M'Gregor expected in a few days, with a consider able addition to them, and several armed vessels are looked for from Europe and America.

"Many depredations have been com nitted under their flag, by pirates from lifferent places; that on the schoone Providence of Kingston, was perpetrated ov a black man named Peter, of Boo Chica, his mate Padilla, and his associat Munos, all noted characters from Car thagena, to whom Bolivar had granted commission, but Brion issued orders not to respect them, except endorsed by himself, and Peter was fallen in with at sea his commission taken away, and ordered into port, which instead of obeying, he tions, but has at length been seized by Brion, and is now undergoing a severe punishment-It is determined to make a similar example of the pirate Pedro Radicte, and all communication is for bidden between the Venezuelean repubic and the Island of St. Domingo.

We lament to state that Colonel Wil iam Chamberlaine, of the Independent army, was killed in April last, at the atack on Barcelona, while bravely conending at the head of his column against he Royalists.

A proclamation has been issued by the Governor of the Island of Trinidad, de nouncing the severe penalty of banish ment from the colony, and confiscation of property, against all persons detected in transmitting arms, warlike stores, or money, to the Independents of South A.

GRORGE MANWARING, RORMERLY Chief Musician in the 3d regiment of United States' artillery, who, having volunteered in the battle on Lake Champlain, which resulted in the glorious triumph of Commodore Macdonough's squadron over the British fleet, lost an arm in that engage ment, and had two of his ribs broken, res ectfully returns his grateful thanks to those inhabitants of Lexington, Frankfort, Versailles, and other places, who have assisted him, for their kind liberality, in relieving his wants.
